

Mohsen Kaveh

Received his B.Sc. degree in electrical engineering from Ferdowsi University of Mashhad, Iran, in 2015, and his M.Sc. degree in electrical engineering from the University of Tehran, Iran, in 2018. He is currently pursuing a Ph.D. degree in the Department of Electrical and Computer Engineering at Western University, London, ON, Canada. He worked on several projects related to improving the power quality of the grid via renewable energy resources, the impact of power quality issues on protection relays, and improving the power quality of the grid.

His research interests include power electronics, power quality, power system protection, and control of renewable energies.
