

### 34- Modeling of an Integrated System for Desalination and Hydrogen Production Based on Solar Energy

**Author:**

**Gonzalo A. Almeida Pazmiño** received a B.Sc. degree from ESPOL Polytechnic University, Ecuador, in 2006, an M.Sc. degree from Yuan Ze University, Taiwan, in 2011, and a Ph.D. degree from Chonnam National University, South Korea, in 2022, all of them in mechanical engineering. Since 2013, he has been a Lecturer at Facultad de Ingeniería Mecánica y Ciencias de la Producción (FIMCP) and a Research Associate at Centro de Energías Renovables y Alternativas (CERA) at ESPOL Polytechnic University, Guayaquil, Ecuador. He is also a Postdoctoral Fellow at the Fuel Cell Research Laboratory (FCReL), Simon Fraser University, Surrey, BC, Canada. He is the author or coauthor of several publications. His research interests include fuel cell systems, hydrogen production, electrical mobility, and modeling, control, and diagnosis of renewable energy systems.
