

Paper ID: 56

Paper title: Output Current Characteristics of Three-Phase Isolated Secondary-Resonant Single-Active-Bridge DC-DC Converter for Output Voltage Variation

Authors: Atsushi Nishio, Kohei Budo, and Takaharu Takeshita

Presenter: Atsushi Nishio

Belonging: Electrical and Mechanical Engineering, Nagoya Institute of Technology, Aichi, Japan, 466-8555

Mr. Atsushi Nishio was born in 1999 in Aichi, Japan. He received B.S. degree in department of electrical and mechanical engineering in 2022 from Nagoya Institute of Technology, Nagoya, Japan, where he is currently working towards M.S. degree. His research interests include isolated DC-DC converter.
